CH-94DC	DC Charger

The **CH-94** is a Lithium Ion only charger able to charge the BP-80 and the new BP-82 & BP-84 Huskie Tool Batteries. During its 1 hour charge time, the CH-94 monitors battery temperature and battery voltage for correct charging.

The design of the charger allows for stability while in motion by allowing the battery to be clipped in place. It also has completely re-designed contacts for a stronger engagement with the battery terminals.
