Huskie TOOLS
A SPARTACO COMPANY

REC-B6630
6.2 Ton Dieless Compression Tool with .90" Jaw Opening

HuskieToolFacts

www.spartacogroup.com

Specifications

Output	6.2 Ton
Weight	11.3 lbs. with Battery
Size	16.1"L x 10.7"H x 3.1"W
Jaw Opening	.90"

Crimping Estimates

	BP-84
4/0 Cu	90
500 MCM Cu	110

Connector Range

*Lugs and Splices	#6 AWG - 500 MCM Al/Cu

Features

- *Designed to Crimp Anderson Connectors & Other Brand Connectors Manufactured to ANSI C119.4
- Rapid Advance
- One Hand Operation
- Tested Up to 75kV
- Rotational Head
- Ergonomically Designed for Balance and Grip
- Weather Resistant Housing
- Audible Bypass when Predetermined Pressure is Achieved
- Eliminates the Need for Dies
- 5 Year Warranty on Tool, Battery & Charger

The **REC-B6630** is a battery operated, dieless compression tool used to compress Anderson style lugs. Six tons of compression force are achieved when the tool advances and bypasses at the predetermined pressure. Advance and retract buttons on the tool handle allow for one hand operation, freeing the other hand to maneuver the cable. The REC-B6630 is designed to crimp Anderson Style connectors. Other brand connectors manufactured to ANSI specifications C119.4 can be used. For range-taking connectors, the cable must be maximum size specified for the connector. Consult your connector manufacturer for dieless applications.

NOTE: For range taking connectors, the cable must be the maximum size specified for the connector. Consult your connector manufacturer for dieless applications.

The new 6 series battery operated tools with "B" designation are Bluetooth enabled products.
These tools are able to communicate data to your Bluetooth enabled PC via the downloadable software available on Spartaco website.
In addition to the audible beeps and visual Led indicators on these tools identifying battery connection, full compression cycles, proper achieved pressure, and incomplete crimps, the tools also record data to be viewed later via the Bluetooth connection at you PC.
The data includes locked fields for model and serial number of the tool connected.
It has cycle count data, and it has fields for read / write capabilities for the user to enter notes such as truck or job number, repair history, or any note the user or maintenance technician may feel important to record.
Complete operation instructions as well as the downloadable computer software is available at: www.spartacogroup.com
