12 Ton Streamline Compression Tool with "C" Head

[www.spartacogroup.com](http://www.spartacogroup.com)

## HuskieToolFacts

### Specifications

Output	12 Ton
Weight	12.5 lbs. with Battery
Size	19"L x 4.75"H x 3.9"W
Jaw Opening	1.65"

### Crimping Estimates

	BP-84
4/0 Cu	90
500 MCM Cu	60

### Connector Range

Lugs and Splices	Up to 750 MCM Cu/Al
------------------	---------------------

### Features

- Utilizes "U" Type Dies
- 12 Ton Streamline Tool
- Tested Up to 75kV
- Rotational Head
- Bright White, LED Lights for Working in Low Light Conditions
- Rubber Boot on Compression Head
- Rapid Advance
- Audible Bypass when Predetermined Pressure is Achieved
- 5 Year Warranty on Tool, Battery & Charger

The new 6 series battery operated tools with "B" designation are Bluetooth enabled products.

These tools are able to communicate data to your Bluetooth enabled PC via the downloadable software available on Spartaco website.

In addition to the audible beeps and visual Led indicators on these tools identifying battery connection, full compression cycles, proper achieved pressure, and incomplete crimps, the tools also record data to be viewed later via the Bluetooth connection at you PC.

The data includes locked fields for model and serial number of the tool connected. It has cycle count data, and it has fields for read / write capabilities for the user to enter notes such as truck or job number, repair history, or any note the user or maintenance technician may feel important to record.

Complete operation instructions as well as the downloadable computer software is available at: [www.spartacogroup.com](http://www.spartacogroup.com)

The **SL-B510** is the first Bluetooth 12 ton streamline compression tool in the industry. The new SL-B510 will deliver 12 tons of compression force, utilizing all industry standard "U" dies. The capacity of the tool is the same as the pistol grip REC-6510, capable of accepting lugs and splices up to 750 MCM.

Utilizing the streamline design and replacing the traditional "C" head with a smaller, lightweight, latched head design makes the new SL-B510 the lightest 12 ton tool on the market today. The new housing design incorporates a rubber over-mold handle grip area allowing the operator better tool control.
