

# SL-B610

15 Ton Streamline Compression Tool

[www.spartacogroup.com](http://www.spartacogroup.com)

## HuskieToolFacts

### Specifications

Output	15 Ton
Weight	16.5 lbs. with Battery
Size	25" L x 4" H x 5" W
Jaw Opening	2"

### Crimping Estimates

	BP-84
1000 MCM Cu	40

### Connector Range

Aluminum	#8 AWG - 1250 MCM
Copper	#8 AWG - 1500 MCM
H-Tap	Up to 750/750

### Optional Accessories

PU-15 "U" Die Adapter

### Features

- Utilizes "P" Type Dies
- Tested Up to 75kV
- Rotational Head
- Bright White, LED Lights for Working in Low Light Conditions
- Rapid Advance
- Audible Bypass when Predetermined Pressure is Achieved
- Protective Rubber Boot on Head
- Flip-Top Rotating Head
- 5 Year Warranty on Tool, Battery & Charger

The new 6 series battery operated tools with "B" designation are Bluetooth enabled products.

These tools are able to communicate data to your Bluetooth enabled PC via the downloadable software available on Spartaco website.

In addition to the audible beeps and visual Led indicators on these tools identifying battery connection, full compression cycles, proper achieved pressure, and incomplete crimps, the tools also record data to be viewed later via the Bluetooth connection at you PC.

The data includes locked fields for model and serial number of the tool connected. It has cycle count data, and it has fields for read / write capabilities for the user to enter notes such as truck or job number, repair history, or any note the user or maintenance technician may feel important to record.

Complete operation instructions as well as the downloadable computer software is available at: [www.spartacogroup.com](http://www.spartacogroup.com)

The **SL-B610** is built on a similar platform as our SL-ND tool, the most robust and versatile streamline tool in the industry. The new SL-B610 will deliver 15 tons of compression force, utilizing all industry standard "P" dies. The capacity of the tool is the same as the REC-3610, capable of accepting lugs up to 1500MCM copper and 1250MCM Aluminum.

Utilizing the streamline design and replacing the traditional "C" head with a smaller, lightweight, latched head design makes the new SL-B610 the lightest 15 ton tool on the market today. The new housing design incorporates a rubber over-mold handle grip as well as an optional handle allowing the operator better tool control.
