A SPARTACO COMPANY

SL-CB

Streamline Cable Bending Tool

HuskieToolFacts

www.huskietools.com

Specifications

Weight	14.4 lbs. with Battery
Size	7"L x 22"H x 14"W

Bending Uses

Underground Vaults

Meter Bases

Substation

Bending Capacity

Cable	1000 MCM Cu For Larger Cable, Consult Factory
-------	---

Features

- New Pull-Pin Design for Quick Jaw Change
- Bright White, LED Lights for Working in Low Light Conditions
- Audible Bypass when Predetermined Pressure is Achieved
- Tested Up To 75kV
- 5 Year Warranty on Tool, Battery & Charger

The **SL-CB**, the first of its kind in the electrical utility industry, is a battery powered cable bender. The SL-CB utilizes the pull-pin design, allowing technicians to change jaws from compression, to cutting, to cable bending. The SL-CB is just one of the many ergonomic solutions, provided by Huskie Tools, to help reduce strains and sprains associated with the daily tasks of a powerline technician. The SL-CB has several different settings, so the tool can be used on either secondary or primary conductor in a variety of sizes. Featuring a low profile, the SL-CB can be used in a variety of close-quarter environments; such as underground vaults, meter bases and substation applications and wherever cable bending is required.

NOTE: Contact cable manufacturer for specified cable bending radii and cable bending requirements.
